## LAMINAM LAMINAM

La lastra in gres porcellanato Laminam unisce allo spessore ridotto e alle grandi dimensioni un'elevata resistenza alle sollecitazioni meccaniche, ai prodotti chimici, all'usura, ai graffi, all'abrasione profonda e alla flessione; è facilmente igienizzabile, resistente al gelo, al fuoco, alle muffe, all'azione dei raggi UV. Tutte le caratteristiche e le proprietà cromatiche delle lastre sono inalterabili, restano immutate nel tempo e in presenza di ogni condizione atmosferica.

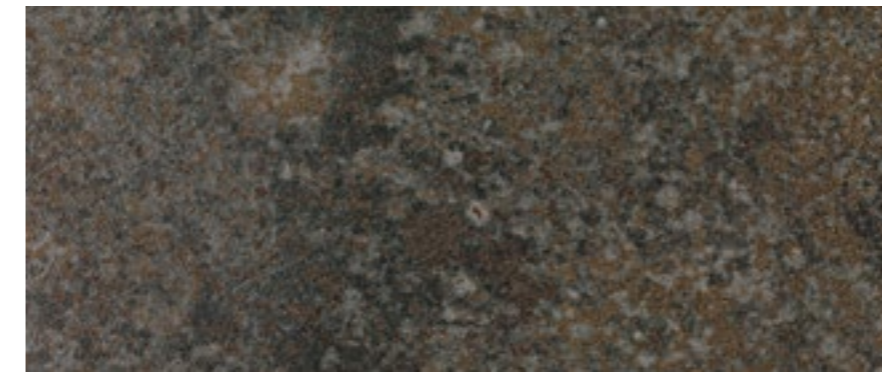

The Laminam porcelain stoneware slab combines reduced thickness and large dimensions with high resistance to mechanical stress, chemicals, wear, scratches, deep abrasion and bending; it is easily sanitized, resistant to frost, fire, mold and UV rays. All the characteristics and chromatic properties of the slabs are unalterable, they remain unchanged over time and in the presence of all weather conditions.
